

Tracy Baynard, Ph.D., FACSM, FTOS
Curriculum Vitae

Address: University of Illinois at Chicago
Integrative Physiology Laboratory
Department of Kinesiology & Nutrition
527 Applied Health Sciences Building
1919 W. Taylor St., MC-517
Chicago, IL 60612

Phone: 312-413-1962 (work)

Email: tbaynard@uic.edu

1. EDUCATION:

- | | | |
|-------|--|-----------|
| Ph.D. | Syracuse University— Exercise Physiology/Science Education | June 2007 |
| | Advisor—Jill A. Kanaley | |
| M.S. | The George Washington University— Exercise Science | Aug 2001 |
| | Specialization Track: Clinical Exercise Physiology | |
| B.A. | Western Maryland College (now—McDaniel College) | May 1993 |
| | Major: Physical Education | |
| | Minors: Exercise Science, Athletic Training | |

2. PROFESSIONAL EXPERIENCE:

A. University of Illinois at Chicago (8/11-present)

1. Assistant Professor— (8/11-present)
2. University of Illinois Cancer Center—member (2/12-present)
3. Honors College—Faculty Fellow (9/11-present)
4. Division of Cardiology, Department of Medicine—Courtesy Appointment—Assistant Professor (4/16-present)

B. University of Illinois at Urbana-Champaign (8/08-present)

1. Courtesy Appointment, Assistant Professor (8/11-present)
2. Assistant Professor (8/08-8/11)
3. Division of Nutritional Sciences Faculty Member (6/09-8/11)
4. Director of the Lifetime Fitness Program (8/10-8/11)

B. University of Illinois at Urbana-Champaign (7/07-8/08)

1. Post-doctorate Research Associate; Mentor: Jeffrey A. Woods, Ph.D.

C. Syracuse University (8/2001-08/06)

1. *Project Coordinator/Research Assistant:* (NY State Diabetes Bridge Grant, NIH 1R21DK063179-01A), 2003-06.
2. *Research Assistant:* (National Institute of Disability and Rehabilitation Research Grant) 2004-06.

3. *Research Assistant* (American Heart Association Grant-In-Aid), 2001-04
4. *Graduate Assistant Exercise Science Department*: 2001-03

D. The George Washington University Medical Center (1999-2001)

1. *Graduate Assistant Exercise Science Program*, 9/1999-8/2001
2. *Research Project Assistant*, 9/1999-8/2001
3. *Research Intern*, Summer 2000
4. *Graduate Assistant-Athletic Department*, 11/99-5/2000

3. SCHOLARLY ACTIVITY

A. Refereed Manuscripts:

1. H Yan, SM Ranadive, AD Lane-Cordova, RM Kappus, MA Behun, MD Cook, JA Woods, KR Wilund, **T Baynard**, JR Halliwill, B Fernhall. The effect of acute aerobic exercise and histamine receptor blockade on arterial stiffness in African-Americans and Caucasians. *J Applied Physiology*. 2016 Dec 15:jap.01115.2015. doi: 10.1152/jappphysiol.01115.2015. 139. TIM Hilgenkamp, G Griffith, RW Motl, **T Baynard**, B Fernhall. Poor sleep quality related to worse vascular function in individuals with MS. Artery (Copenhagen), 2016.
140. **T Baynard** and B Fernhall. Central hemodynamic responses following exercise—interactions between sex and obesity. Obesity, 2016.

141. HG Mendez, AJ Rosenberg, **T Baynard**. Sex differences in cardiovascular function following acute lower body resistance exercise. Annual Biomedical Research Conference for Minority Students, Tampa, FL 2016.

G. Abstracts Submitted:

1. K Bunsawat, G Grigoriadis, G Griffith, SO Wee, EC Schroeder, B Fernhall, **T Baynard**. Muscle blood flow responses to dynamic handgrip exercise in young obese adults. Submitted to ACSM, 2017.
2. Rosenberg AJ, SO Wee, EC Schroeder, K Bunsawat, G Grigoriadis, BM Saed, B Fernhall, **T Baynard**. Effect of sex on systemic arterial hemodynamics following acute isokinetic resistance exercise. Submitted to ACSM, 2017.
3. G Grigoriadis, AJ Rosenberg, SO Wee, EC Schroeder, K Bunsawat, B Fernhall, **T Baynard**. Influence of sex on the relationship between leg strength and arterial stiffness. Submitted to ACSM, 2017.
4. G Griffith, TIM Hilgenkamp, AJ Rosenberg, G Grigoriadis, K Bunsawat, B Saed, **T Baynard**. Treadmill vs. cycle ergometry graded exercise test responses in multiple sclerosis patients. Submitted to ACSM, 2017.
5. Schroeder EC, AD Lane-Cordova, SM Ranadive, **T Baynard**, B Fernhall. High fit older adults maintain a similar endothelial-response to acute inflammation as younger adults. Submitted to ACSM, 2017.
6. Fuller KNZ, G Griffith, RE Klaren, JM Haus, **T Baynard**, RW Motl, B Fernhall. Effect of exercise training on cellular inflammation and fitness in individuals with multiple sclerosis. Submitted to ACSM, 2017.
7. Hilgenkamp TIM, EC Schroeder, DW White, **T Baynard**, B Fernhall. Blunted autonomic response to orthostasis in individuals with intellectual disabilities. Submitted to ACSM, 2017.
8. Wee SO, AJ Rosenberg, K Bunsawat, G Griffith, **T Baynard**, B Fernhall. Arterial distensibility and compliance following lower body negative pressure in individuals with Down syndrome. Submitted to ACSM, 2017.
9. Bunsawat K, SO Wee, G Griffith, MD Brown, SA Phillips, PJ Fadel, PS Clifford, B Fernhall, **T Baynard**. No evidence of impaired functional sympatholysis in young obese adults. Submitted to Experimental Biology, 2017.
10. Grigoriadis G, AJ Rosenberg, SO Wee, EC Schroeder, **T Baynard**. Effects of aerobic capacity on arterial stiffness in multiple sclerosis. Submitted to Experimental Biology, 2017.
11. Rosenberg AJ, SO Wee, EC Schroeder, G Grigoriadis, BM Sandroff, K Bunsawat, TIM Hilgenkamp, GJ Griffith, RW Motl, **T Baynard**. The Effects of Acute Aerobic Exercise on Cerebral Blood Flow and Cognition in Persons with Multiple Sclerosis. Submitted to Experimental Biology, 2017.
12. Griffith G, SO Wee, RE Klaren, RW Motl, **T Baynard**, B Fernhall. Multiple sclerosis patients do not show changes in wave intensity analysis following home-based exercise. Submitted to Experimental Biology, 2017.
13. Schroeder EC, TIM Hilgenkamp, AJ Rosenberg, DW White, **T Baynard**, B Fernhall. Hydrostatic pressure alone, not autonomic activation, increases arterial stiffness with torso inclination. Submitted to Experimental Biology, 2017.
14. Thessa Hilgenkamp, Elizabeth C. Schroeder, Daniel W. White, **Tracy Baynard**, Bo Fernhall. Blunted autonomic response to head up tilt in individuals with intellectual disabilities. Submitted to Experimental Biology, 2017.

15. Sang Ouk Wee, Alexander J. Rosenberg, Kanokwan Bunsawat, Garrett J. Griffith, **Tracy Baynard**, Bo Fernhall. Carotid Vascular Blood Flow in Individuals with Down Syndrome Following Low Body Negative Pressure Challenge. Submitted to *Experimental Biology*, 2017.
16. Saed B, G Garrett, SO Wee, RE Klaren, RW Motl, **T Baynard**, B Fernhall. The effect of home-based aerobic exercise on perceived quality of life in multiple sclerosis patients. Submitted to *Experimental Biology*, 2017.

H. Invited Presentations:

1. Joslin Diabetes Center, SUNY Upstate Medical University, 2004; *"VCAM, ICAM, WhoCam?"*
2. Joslin Diabetes Center, SUNY Upstate Medical University, 2005; *"Short-term exercise effects on arterial function and type 2 diabetes"*
3. Skidmore College, April 2006; *"Short-term training effects on myocardial and vascular function in type 2 diabetes"*
4. MARC-ACSM, Harrisburg, PA, Nov. 2007; *"Diabesity—Is it a metabolic disease or an arterial disease? A closer look at cardiovascular implications with diabesity"*
5. European College Sports Sciences Satellite Course—Inflammation & Cardiovascular disease—July 2008, Lisbon, PORTUGAL--*"Obesity, Diabetes, and Cardiovascular Disease"*
6. Seminar speaker—Integrative Immunology & Behavior Group, UIUC; Feb 2008.
7. Seminar speaker—Division of Nutritional Sciences, UIUC; Jan 2009; *"Dangerous Times?—The postprandial period and cardiovascular function in obesity"*
8. Seminar speaker—Department of Bioengineering, UIUC, Sept. 2011 *"Hot Fat"*
9. Seminar speaker—Department of Kinesiology & Nutrition; UIC, Oct 2011 *"Hot Fat"*
10. Grand Rounds—Neurology, UIC, Sept 2012 *"Therapeutic effects of exercise in demyelinating disease"*
11. Seminar speaker—Integrative Immunology & Behavior Program, UIUC, Nov 2012, *"Transitioning to the Real World: What to do When Your Clone Doesn't Arrive"*
12. U of I Cancer Center Diet & Behavior Shared Resource Training Symposium, UIC, May 2013, *"Physical Activity & Physical Fitness Measurements"* (Baynard & Marquez).
13. Seminar Speaker—Physical Therapy Dept, UIC, Aug 2013, *"Down Syndrome, Obesity, & Autonomic Function"*
14. Seminar Speaker—Dept. of Kinesiology, University of Kentucky, Apr 2014. *"Autonomic Dysfunction and Heart Rate Variability in Special Populations"*
15. Seminar Speaker—Division of Endocrinology, Diabetes and Metabolism, UIC, Oct 2014. *"Dangerous Times? The postprandial period and cardiovascular function in obesity and diabetes"*
16. Seminar Speaker—Dept. of Nutrition & Exercise Physiology, University of Missouri, Nov 2014. *"Down Syndrome & Autonomic Function—Is Obesity a Problem Here?"*
17. Seminar Speaker—Pulmonary, Critical Care, Sleep & Allergy Research Conference Series, UIC Apr 2015. *"Hot fat—obesity, inflammation and exercise training"*
18. Symposium speaker—American College of Sports Medicine National Meeting (San Diego, CA), May 2015. *"Heart Rate Variability, Exercise, and Special Populations"*.
19. Symposium speaker—European College Sports Sciences (Malmo, Sweden)-Polar Sponsored Symposium, June 2015—*"Heart Rate Variability and Exercise Training: A Possible Way to Improve Fitness in Clinical Populations"*.

20. Seminar Speaker—Dept. of Physiology & Biophysics, UIC, Nov 2015. *“Autonomic Dysfunction in Individuals with Down Syndrome”*.
21. Symposium speaker—International Assoc. Scientific Study Individuals with Intellectual Disabilities. Session: Challenging implicit assumptions of intervention to improve physical activity and fitness levels in people with ID: the impact of physiology. **Baynard’s talk:** *Autonomic Regulation in Individuals with Down Syndrome: What Do We Know and Where to Go*. Melbourne, Australia, Aug 2016.
22. Seminar Speaker—University of Western Australia, School of Sport Science, Exercise, and Health (Perth, Australia), Aug 2016. *Exercise and autonomic function in obesity and diabetes*.
23. Seminar Speaker—Murdoch University, School of Psychology and Exercise Science (Perth, Australia), Aug 2016. *Limitations to physical work capacity in Down syndrome—a case of autonomic dysfunction*.

I. Miscellaneous Presentations

- Graduate Seminar Series—Syracuse University: Syracuse, NY
Sept. 2001, Feb. 2004, Dec. 2004, Nov. 2006
- Graduate Seminar Series—University of Illinois at Urbana-Champaign: Urbana, IL
Oct. 2007
- Mid-Atlantic Regional ACSM (free communications): 2001-2005
- New York Exercise Science Consortium (free communication): Ithaca, NY, 2002
- Onondaga County Employees “Exercise & Your Health—Tips for Moving”, 2003
- Poster Presentation—UIC Diabetes & Obesity Research Day Oct 14, 2014; Sae Young Jae and **T. Baynard**. “Metabolically healthy obesity and carotid atherosclerosis: effects of cardiorespiratory fitness”

J. Symposium Proposals: Symposium Organizer/Speaker

- **Symposium Organizer** --ACSM May 2015. Symposium “Nervous about Exercise? Exercise, Autonomic Function, and Vascular Control”. (Peter Raven, Ph.D. (chair), speakers: Paul Fadel, Ph.D., *Tracy Baynard* Ph.D., Danny White Ph.D., John Halliwill, Ph.D.)
- **Featured Topic Organizer & Chair**—Experimental Biology April 2016. “Recovery from exercise and translating post-exercise hypotension”. (John Halliwill, Ph.D. (U of Oregon) and Claudia Forja, Ph.D. (U of São Paulo, Brazil)—invited speakers)
- **Featured Topic Organizer & Chair**—Experimental Biology, April 2017. “Vascular-mediated mechanisms of cognition and the role of exercise”. (Gary F. Mitchell (Cardiovascular Engineering Inc.)—invited speaker).

4. RESEARCH GRANTS

A. External Awarded:

1. American Diabetes Association Junior Faculty Development Award—Heart rate variability-guided exercise training in type 2 diabetes. **Baynard-PI** (15%). 1-1-2017 to 12-31-2020. \$552,000 total. (#1-17-JDF-073)

T. Baynard

Last updated 1-13-17

2. NIH NICHD R01. Sickle cell anemia and exercise. PI-R. Liem; **Role—Site-PI** (10%), To start May or June 2017-2021.
3. American Heart Association (Mid-West Affiliate) Pre-doctoral Fellowship, Kanokwan Bunsawat Ph.D. candidate—Role of Obesity on Neurovascular Responses to Exercise. **Baynard-Sponsor**. 1-1-16 to 12-31-17; \$52,000 total. (16PRE26430096)
4. Department of Veterans Affairs, VA Merit Award. “Exercise Therapy to Reduce Heart Failure Symptoms: Sorting Mechanisms of Benefit” (10-1-15 to 9-30-17). Total \$1,100,00 (UIC portion \$124,009) PI-Dan Forman (VA Pittsburgh Medical Systems); **Baynard-Site PI** (5%). (F0834-R)
5. National Multiple Sclerosis Society, January 2013. “Exercise, Subclinical Atherosclerosis, and Mobility in Multiple Sclerosis” (12-1-12 to 9-30-16). Total-\$652,590. PI-Fernhall; **Baynard-Co-I** (5%).
6. 2012-National Multiple Sclerosis Society: **Baynard-Site PI** (30%), Rob Motl—PI (UIUC). “Project METS in MS—Multimodal exercise training stimulus in multiple sclerosis”. 4-1-12 to 3-31-13, UIC portion-\$149,417
7. 2009-NIH S10 Grant (Shared Instruments Grant): **Baynard--minor user** (PIs-William O’Brien & Stephen Boppart @ UIUC) “High-Resolution In Vivo Ultrasound Imaging Using VisualSonics VEVO 2100 System”, \$499,098

B. External Not Funded/Selected:

1. NIH NIDDK DP3 (RFA-DK-15-028—Impact of the Use of Glucose monitoring and control technologies on e-health outcomes and quality of life in older adults with T1D) Type 1 Diabetes Targeted Research Award—PI-L. Quinn; **Role—Co-I** (5 %), Submitted Mar 2016.
2. NIH NICHD R03-Parent Grant, Limb blood flow in Down syndrome. PI-Fernhall. **Role—Co-I** (5%). Submitted Feb 2016.
3. NIH NCMRR R21-Parent Grant--OUTCOMES in MS Trial: Exercise training effects on cerebrovascular and cognitive OUTCOMES IN MS. **PI-Baynard** (10%). Submitted Feb 2016.
4. Dept. of Defense, Pilot Clinical Trial Award, Multiple Sclerosis Research Program—**Baynard-PI** (15%). Submitted Pre-application May 2016.
5. Merck/EMD Serono Grant for Multiple Sclerosis Innovation—Letter of Intent, **PI-Baynard**. Submitted Feb 2016.
6. National Multiple Sclerosis Society Career Transition Postdoctoral Fellowship LOI—PI-TIM Hilgenkamp. **Role-Co-Mentor**, Submitted May 2016.
7. American Heart Association Grant-in-Aid—Heart rate variability-guided exercise training in type 2 diabetes. **PI—Baynard** (10%). Submitted Jan 2016.
8. NIH NIDDK R01-Parent Grant, Nov 2015 (7-16 to 6-21) The NEAT 2D Study: Novel Exercise Approach in Type 2 Diabetes (resubmission). Total 3.86 million. **Role—PI** (25%). *Scored 25%ile.*
9. American Heart Association-Strategically Focused Research Network (7-16 to 6-20) “Obesity-related cardiovascular disease in minority women”. Basic Science Project (PI- D Darbar) “Obesity, Redox State and Arrhythmias”. Total 3.7 million. **Role—Co-I** (5%).
10. American Diabetes Association Junior Faculty Development Award—Heart rate variability-guided exercise training in type 2 diabetes. **Baynard-PI**. Submitted April 2015. *Scored in top 25% (made 1st cut).*

11. American Heart Association Grant-in-Aid—Heart rate variability-guided exercise training in type 2 diabetes. **PI—Baynard**. Submitted Jan 2015.
12. NIH NIDDK R01-Parent Grant, Oct 2014 (7-15 to 6-20) “The NEAT 2D Study: Novel Exercise Approach in Type 2 Diabetes”. UIC Total 3.7 million. **Baynard—PI** (25%).
13. NIH NHLBI Clinical Trial Pilot Study (R34), Oct 2014 (7-15 to 6-18) “Aerobic exercise training in children and adolescents with sickle cell anemia”. UIC Total-\$91,716. PI-Robert Liem (Lurie Children’s). **Baynard—Site PI** (5%).
14. FCT, Portugal (Foundation of Science and Technology—main research funding agency in Portugal): Resistance training in chronic heart failure: a potential adjunctive rehabilitation option for patients following cardiac resynchronization therapy. PI—H. Santa Clara; Role **Baynard- Co-I** Submitted Jan 2015
15. 2015 Environmental & Exercise Physiology New Investigator Award—The American Physiological Society
16. Diabetes Action Research Education Foundation, May 2014. 1-1-15 to 12-31-15. “A novel approach for exercise prescription—using heart rate variability to optimize fitness among individuals with type 2 diabetes”. **Role-PI** \$40,000.
17. National Multiple Sclerosis Society, Mar 2014. 10-1-14 to 9-30-15. “Understanding associations among inflammation, mobility, adiposity, and physical activity in MS”. **Role-PI**. \$110,000.
18. NSF, June 2013. “Gait analysis using phone apps to monitor chronic health.” PI-Schatz (UIUC); **Role-Co-PI** (no salary support), other Co-PIs (J. Krishnan). \$500,000.
19. Department of Homeland Security, Dec 2012. “Cardiovascular response to and recovery from firefighting—age, fitness and obesity.” PI-G. Horn (UIUC); **role—Co-I** (5%). Total-\$930,954; UIC portion-\$382,170
20. National Multiple Sclerosis Society, March 2013, 10-1-13 to 9-30-14. “Aerobic Exercise and Cognition in Multiple Sclerosis: Is Exercise Key?”. **Role-PI**. \$100,000.
21. National Multiple Sclerosis Society, May 2012. 10-1-12 to 9-30-13. “Aerobic Exercise and Cognition in Multiple Sclerosis: Is Exercise Key?”. **Role-PI**. \$100,000.
22. Department of Homeland Security, April 2012. “Cardiovascular response to and recovery from firefighting—age, fitness and obesity.” PI-G. Horn (UIUC); **role—Co-I** (5%). Total-\$930,954; UIC portion-\$382,170.
23. 2011-American College of Sports Medicine Research Endowment Grant—“Exercise mediates behavior via immune pathways in a model of youth obesity.” (\$10,000)
24. 2011-NIH NIDDK K01—Abrogating the biobehavioral complications of youth obesity with exercise. **Role—PI**. (\$571,360)

C. Internal Awarded:

1. 2012-UIC—Chancellor’s Discovery Fund—**Baynard—PI** (Co-I: SC Dudley). “Sex specific differences in ventricular-arterial coupling during hyperglycemia in heart failure.” 0%, 6-1-2012 to 5-30-2013. \$60,000
2. 2009-UIUC Mary Jane Neer Grant—**Baynard--PI** (Co-I: Paul Gold, Bo Fernhall), \$15,000. “Can administration of activity-dependent neuroprotective protein ameliorate common decrements in brain and autonomic function in a mouse model of Down syndrome?”.
3. 2009-UIUC Research Board. **Baynard-PI**. (Co-I: Jeffrey A Woods), \$13,953.

“Temporal development and the effects of exercise training on adipose tissue hypoxia and inflammation in mice fed a high-fat diet”.

D. Internal Not Funded:

1. UIC CCTS Pilot Grant Program, Feb 2013. The miPACE Study: *mobile interventions for Physical Activity in COPD at home*. PI-JA Krishnan; **role-Co-I** (5%, no salary). \$30,000.
2. 2012-UIC NIH Building Interdisciplinary Research Careers in Women’s Health (BIRCWH) K-12 finalist. (75% protected research time + 20k research support/yr).
3. 2011-UIUC Center on Health, Aging & Disability Pilot Grant Program—Abrogating biobehavioral complications with exercise in a model of youth obesity. **Baynard-PI**. (\$15,000)
4. 2011-UIUC Research Board—“Abrogating the biobehavioral complications of youth obesity with exercise in young mice.” **Baynard-- PI**. (\$28,620)
5. 2010-UIUC Health & Wellness Initiative Seed Grant— (PI: K.B.H. Clancy; **Co-I: T. Baynard** and G. Freund). \$42,000. “Women’s reproductive function: understanding variability in sickness and health.”

E. Pending

American Diabetes Association—Pathway Accelerator Award. Investigating Multi-System Effects of Islet Cell Transplantation to Accelerate the Study of Premature Aging and Complications in Type 1 Diabetes. PI—K. Danielson; **Role—Co-I** (4%), Submitted July 2016.

American Heart Association Strategically Focused Research Network—OBESITY. “Obesity-related cardiovascular disease in ethnic minorities”. PI-D. Darbar. **Role—Co-I** (5%). Submitted Nov 2016.

National Multiple Sclerosis Society. Effect of exercise intensity on fitness, mobility, subclinical atherosclerosis and cognitive function using home based exercise training in MS. PI-B Fernhall. **Role—Co-I** (10%). Submitting Feb 2017.

F. Pre-doctoral Student awards

External Awarded

- Sigma Delta Epsilon Fellowship: Graduate Women in Science: ‘Short-term training effects on myocardial and vascular function in type 2 diabetes during acute hyperglycemia’; \$3000, 2005
- American College of Sports Medicine Mid-Atlantic Region: ‘Short-term training effects on vascular function in persons with metabolic syndrome, during acute hyperglycemia’; \$500, 2005
- Life Fitness Academy: Michael L. Pollock Memorial Research Grant: ‘Effect of aerobic exercise training on autonomic function in type 2 diabetic women’; \$2500, 2003
- American College of Sports Medicine Foundation Research Grant: ‘Effect of Exercise on Fibrinolysis and Vasodilatory Capacity’; \$5000, 2002

Internal Awarded

- Syracuse University Graduate School Travel Grants, total of \$2400 2001-2006
- Sidney Young Award, Exercise Science Department, Syracuse University: 2003, 2004
- Graduate School Research & Creative Grant Competition, Syracuse University: 2003, 2004

5. PROFESSIONAL SERVICE, AWARDS, HONORS

T. Baynard

Last updated 1-13-17

A. Departmental Service:

- UIC-Developed Pilot Undergraduate Mentoring for Success Program-SP 2016
- UIUC Director of the Lifetime Fitness Program, 2010-2011
- UIUC Visiting Instructor Search Committee, 2010-2011
- UIUC Travel Awards Committee, FA 2008

B. College Service

- UIC Honors College—Interviewer for incoming students, SP 2013, 2014, 2015, 2016
- UIC—Search Committee, 1 Research Specialist Spring 2015
- UIC—Search Committee Chair, 2 Research Specialists Spring 2014
- UIC Honors College—Tuition waiver committee, Fall 2013
- UIC—Search Committee Chair, 2 Research Specialists Fall 2012

C. University Service

- UIC—Chancellor’s Graduate Research Award Program-Reviewer (2015, 2016)
- UIC—Senate member (2012-2015)
- UIC Student Success Plan-Targeted First-Year Curriculum Task Force member (2013)

D. Professional Organization Memberships:

- American College of Sports Medicine: 2000-present
- American College of Sports Medicine Mid-Atlantic Region: 2000-2008
- American College of Sports Medicine Mid-West Region: 2009-present
- American Diabetes Association: 2004-2009, 2016-present
- American Heart Association: 2005-present
- American Physiological Society: 2003-present
- North American Artery: 2013-present
- North American Society for Pediatric Exercise Medicine: 2000-2009
- Obesity Society: 2009-present
- Sigma Delta Epsilon-Graduate Women in Science: 2004-2005
- The Physiological Society (UK) 2017-present

E. Editorialships:

- Reviewing Editor: *Experimental Physiology* (2017-present)

F. Ad Hoc Reviewer:

- Adapted Physical Activity Quarterly 2014
- American Journal of Cardiology-2013
- American Journal of Physiology—Regulatory, Integrative & Comparative Physiology—2012-present
- American Journal of Physiology—Heart & Circulation—2015-present
- Annals of the American Thoracic Society--2013
- Annals of Behavioral Medicine—2011-2012

- Applied Physiology, Nutrition, & Metabolism—2012, 2016
- Autonomic Neuroscience—Basic & Clinical—2012
- BioMed Central--2010
- Brain, Behavior & Immunity: 2008, 2012
- Developmental Neurorehabilitation 2015-present
- Diabetes & Metabolism: 2008
- Diabetes, Obesity & Metabolism—2009, 2015-present
- Diabetologia—2010
- Disability & Rehabilitation—2015-present
- Hypertension—2016
- Hypertension Research—2011
- International Journal of Sports Medicine-2009-present
- Journal of Applied Physiology—2011-present
- Journal of Diabetes and Its Complications-2014-present
- Journal of Intellectual Disabilities Research—2011, 2015-present
- Journal of Physical Activity & Health: 2007-2009, 2012-13
- Journal of Visualized Experiments: 2012
- Mediators of Inflammation—2012
- Medicine Science Sports & Exercise: 2007-present
- Nutrition & Metabolism: 2007
- Obesity: 2009-present
- Pediatric Exercise Science—2015
- Pediatrics—2010, 2012-present
- Vascular Medicine Journal--2014

G. Grant Reviewer

- *NIH Clinical & Integrative Cardiovascular Sciences (CICS) Study Section*-NIH Early Career Reviewer Program, June 2016
- *American Heart Association:*
 1. Behavioral Sciences Panel, standing member: 2011-2015
 2. Innovative Research Grant Panel: 2012
 3. *Ad hoc*: 2008-2010
- *Icelandic Research Fund: ad hoc*, 2011.
- *Diabetes United Kingdom-Research Grant: ad hoc*, 2005

H. Abstract Reviewer

- American Heart Association Scientific Session Abstract Reviewer—June 2016

I. Scientific Judge

- UIC Faculty Judge: Student Research Forum, 2012, 2013, 2016.
- American Society of Nutrition—Experimental Biology abstract competition 2011.
- UIUC--Nutrition Symposium Poster Judge, April 2008 & 2009

J. Chair of Scientific Oral Presentation session(s):

- Experimental Biology (American Physiological Society)—2017 (Organized, Proposed, to Chair)
- Experimental Biology (American Physiological Society)—2016 (Organized, Proposed, Chaired)
- European College Sports Science—assigned session, 2008

K. Meeting Organizer

- Lead organizer “Illinois Brain, Behavior & Immunity”, Chicago, IL 2012
- Co-organizer “Illinois Brain Behavior & Immunity”, Chicago, IL 2011

L. Academic/Professional Honors:

- Fellow, The Obesity Society, 2015
- Fellow, American College of Sports Medicine, 2013
- Doctoral Prize—School of Education, Syracuse University, 2008
- Recipient of the “Michael L. Pollock Scholarship Award”—American College of Sports Medicine, 2007
- Recipient of ‘President’s Award’—American College of Sports Medicine Mid-Atlantic Region, 2004
- Recipient of ‘Outstanding Teaching Assistant Award’: Syracuse University, 2004
- Honorable Mention: MARC-ACSM student research award, 2003
- Graduated Magnus Cum Laude: McDaniel College, 1993
- Phi Beta Kappa—Liberal Arts Honor Society, 1993
- Dean’s List: 1989-1993 (Western Maryland College); 2000, 2001 (The George Washington University)
- Recipient of ‘Outstanding Physical Education Major of the Year’: 1993 American Alliance for Health, Physical Education, Recreation and Dance (Western Maryland College)

M. Mentoring

- American Physiological Society ‘meeting mentor’ to a graduate fellow—part of their “Minority Travel Fellow” program. Inflammation, Immunity, CVD APS meeting, Westminster, CO, 2010.
- UIC Dept. of Kinesiology & Nutrition Helen Barton Scholarship Awardees—
 - a) Cory Silver-Summer 2012
 - b) Jeremy Shoup-Summer 2013
 - c) Paul Marqui-Summer 2014
 - d) Elliot Weiss-Summer 2015
- Faculty advisor through the UIC Graduate College’s *Summer Research Opportunity Program*, Summer 2016, Mr. Hernán Mendez (Puerto Rico).

N. Trainee Awards/Honors/Fellowships

- Kanokwan Bunsawat: Recipient of a Pre-Doctoral Fellowship from the American Heart Association (1-1-16 to 12-31-17).
- AJ Rosenberg: Recipient of the Early Investigator Award at the North American Artery Annual Meeting (Sept, 2016), Chicago, IL.

T. Baynard

Last updated 1-13-17

- Thessa Hilgenkamp (Baynard-Co-Mentor): Recipient of the Best Abstract Award at the North American Artery Annual Meeting (Sept, 2016), Chicago, IL.
- AJ Rosenberg: Recipient of a Bursar's Award (competitive travel award--500 euro) for his abstract submission to Artery (Association for Research into Arterial Structure and Physiology; International meeting held in Copenhagen, Denmark Oct, 2016).
- Hernán Mendez: Full travel award for his abstract "Sex differences in cardiovascular function following acute lower body resistance exercise." Presented at the Annual Biomedical Research Conference for Minority Students, Tampa, FL 2016.

6. STUDENTS-- THESIS/DISSERTATIONS:

Committee Member—M.S. Theses Completed

- *Lindy Rossow*, M.S., UIUC, advisor Bo Fernhall, 2008
- *Melissa Goslawski*, M.S., UIC, advisor Shane Phillips, 2012
- *Megan Sullivan*, M.S., UIC, advisor Giamila Fantuzzi, 2012
- *Edwin Miranda*, M.S., UIC, advisor Jacob Haus, Aug 2016

Committee Member—Ph.D. Dissertations completed

- *Abbi Lane-Cordova*, Ph.D., UIC, advisor Bo Fernhall, Aug 2013
- *Huimin Yan*, Ph.D., UIUC, , advisor Bo Fernhall, May 2014
- *Jan Kretzschmar*, Ph.D., UIC, advisor Michael Brown, Aug 2014
- *Rebecca Kappus*, Ph.D., UIC, advisor Bo Fernhall, May 2015
- *John Trepanowski*, Ph.D., UIC, advisor Krista Varady, May 2015
- *Chenyi Ling*, Ph.D., UIC, advisor Michael Brown, Dec 2015
- *Austin Robinson*, Ph.D., UIC, advisor Shane Phillips, Aug 2016

Committee Member—Current

- Kanokwan Bunsawat, BS, UIC, **Baynard-Chair**, anticipated graduation Aug 2017
The role of obesity on neurovascular responses to exercise
- Sang Ouk Wee, M.S., UIC, advisor Bo Fernhall, anticipated graduation Dec 2017
- AJ Rosenberg, MS, UIC, **Baynard-Chair**, anticipated graduation May 2018
The Effects of Sex and Aging on Cerebral Blood Flow in Response to Acute Resistance Exercise

Graduated Advisees

- *Kari Hultgren*, M.S.—UIC (Project), May 2014
- *Keith Kowalski*, M.S.—UIC (Project), May 2015
- *Yiyu (David) Wang*, M.S.—UIC (Project), May 2016

Current Advisees

- *Kanokwan Bunsawat*—UIC Ph.D. candidate, 2011-present
- *Alexander Rosenberg*—UIC Ph.D. candidate, 2012-present
- *Georgios Grigoriadis*—UIC, Ph.D. student, 2015-present
- *Kristina Jackson*—UIC, MS student, 2015-present

- *Eric Guthrie*—UIC, MS student, 2015-present
- *Kelsey Mix*—UIC, MS student, 2016-present

7. TEACHING EXPERIENCE

University of Illinois at Chicago:

A. Undergraduate

1. KN 194—Intro to Exercise Science & Health (SP 13; 27 students)
2. KN 152—Intro to Exercise Science & Health
 - a) SP 14; 198 students
 - b) FA 14; 75 students
 - c) SP 15; 150 students
 - d) FA 15; 157 students
 - e) SP 16; 122 students
 - f) FA 16; 164 students
 - g) SP 17; 144 students
3. KN 396—Research Experience
 - a) SP 14; 1 student
 - b) FA 14; 1 student
 - c) SP 15; 3 students
 - d) FA 15; 3 students
 - e) SP 16; 3 students
 - f) FA 16; 2 students
 - g) SP 17; 6 students
4. KN 398/399: Undergraduate Research Project
 - a) SP 15/FA 15—1 student each semester

**Have had 30 students volunteer in the laboratory since 2012, with some taking course credit (captured in KN 396, 398, or 399), and many purely volunteering.

5. KN 493—Undergraduate teaching assistant practicum
 - a) FA 15—8 students
 - b) SP 16—9 students
 - c) FA 16—13 students
 - d) SP 17—15 students

B. Graduate

1. KN 594—Special Topics: Cardiovascular Exercise Physiology (SP 12; 17 students)
2. KN 501—Journal Club (every FA/SP semester 2012-present)
3. KN 596—Independent Study (SP 12, SU 12, FA 12, SP 13, FA 13, SP14, FA14, SP15, FA15, SP16; FA 16, SP 17)
4. KN 545—Advanced Exercise Assessment
 - a. FA 13 (team taught); 11 students
 - b. FA 15 (team taught); 10 students

University of Illinois at Urbana-Champaign:

A. Undergraduate

1. KIN 150—Bioscience of Human Movement
 - a) FA 08; 170 students
 - b) SP 10; 135 students
 - c) SP 11; 130 students
2. KIN 385—Undergraduate Research Experience
 - a) Summer 09; 1 student
 - b) FA 09; 4 students
 - c) SP 10; 4 students
 - d) FA 10; 8 students
 - e) SP 11; 8 students
3. KIN 386—Exercise Training in Elderly Populations—Experience Credit
 - a) FA 10; 3 students
 - b) SP 11; 11 students
 - c) SU 11; 1 student
4. KIN 485—Undergraduate Independent Study
 - a) FA 10; 4 students
 - b) SP 2011; 1 student

B. Graduate

1. KIN 551—Scientific Basis for Human Movement
 - a. FA 09; 17 students
 - b. FA 10; 8 students
2. KIN 553—Circulorespiratory Physiology (FA 08)—team taught; 12 students
3. KIN 590—Independent Study (FA/SP 2009-10, 2010-11)-2 students each semester
4. KIN 594—Special Topics in Cardiovascular Physiology & Metabolism (SP 09)—team taught; 4 students
5. KIN 594—Special Topics in Exercise Physiology Laboratory Techniques (SP 10)—course coordinator; 7 students

Invited Instructor: 2006, 2008, 2009, 2011, 2013, 2014

European Master's Course in Physiotherapy: *Exercise Testing and Evaluation*; taught in Lisbon, PORTUGAL at Lisbon Technical University Faculty of Human Movement. Course taught to students from PORTUGAL, NETHERLANDS, and SWITZERLAND
