

## **UI Health**

A part of UIC, UI Health is a clinical enterprise that consists of a 465-bed tertiary care hospital, 21 outpatient clinics, 11 federally qualified Mile Square Health Center locations and seven UIC health science colleges, including the UIC College of Applied Health Sciences.

We're proud to contribute to the clinical, research and academic activities that train health care leaders and foster healthy communities in Illinois and beyond.

## **Vision**

The UIC College of Applied Health Sciences will be recognized as a national and international leader in health sciences through our excellence in preparing highly qualified professionals, leading scholars and community leaders.

Our scholarly, academic efforts and community engagement will transform society through improved health, inclusion and participation without discrimination in a complex interdisciplinary and multicultural world.

# Academic Support and Achievement Program (ASAP)

ASAP provides AHS students with group and one-on-one tutoring.

ASAP offers books and models related to AHS classes, resources for national certification exams, grad school prep tools and professional development resources.

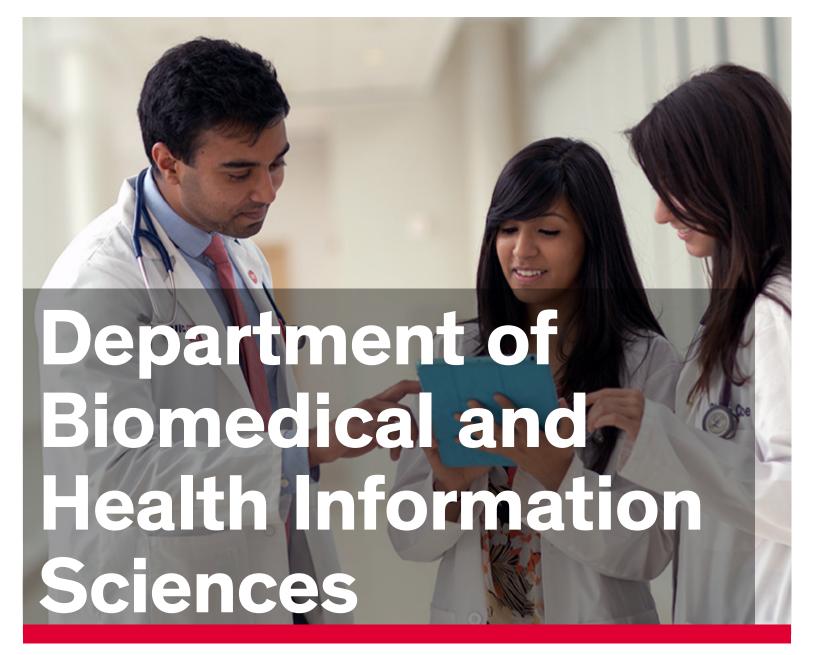

Its workshops cover topics such as time management, exam prep and study skills.

Fall 2020 and Spring 2021

**296** academic skill-building workshops

**580** tutoring contacts

The mission of the Department of Biomedical and Health Information Sciences is to advance the quality and efficiency of healthcare through improved generation, management and communication of biomedical and other healthcare data.

The goals of the department are leadership, innovation, initiative and quality, with a strong focus on the unique arena of health and imaging informatics at the University of Illinois at Chicago.

U.S. News and World Report ranks our DPT program No. 34 in the nation and No. 17 among public universities 1,000

More than 1,000 historical publications with over 4,000 citations

Home to **Illinois' first and only** ABPTRFEaccredited sports
physical therapy
residency program

# Clinical services :::::

## **Assistive Technology Unit (ATU)**

The ATU helps individuals with disabilities achieve maximized independence. Services include adaptive equipment, augmentative communication, computer access, electronic aids for daily living, environmental modification, seating and positioning, and wheeled mobility.

An interdisciplinary team uses a fleet of eight mobile units to bring services to homes, schools, worksites and recreation sites.

Over 95 percent of all services take place in community-based settings.

2007
services were provided to 902 unique individuals

# **Developmental Disabilities Family Clinic**

The family clinic staff takes a holistic, multidisciplinary approach in providing services that maximize potential with a focus on quality of life for individuals with intellectual and developmental disabilities of all ages and their families. Among the programs are the Autism Clinic and TAP Training Center, Child and Family Development Center Early Intervention Program, and the Cognition Behavior and Mindfulness Clinic.

Services include developmental diagnostics and evaluations; behavioral interventions; psychological and mental health counseling with a specialization in trauma; therapy groups; speech therapy; occupational therapy; physical therapy; and family counseling, training and therapy.

Provided diagnostic and support services to **1412** unique individuals

## **OT Faculty Practice**

The UIC OT Faculty Practice provides occupation-focused, evidence-based and client-centered occupational therapy services to children, youth, adults and families. It applies the UIC Department of Occupational Therapy's Community Engaged Scholarship of Practice Model, which emphasizes the meaningful relationships between community partnerships, research evidence

833

#### AHS engages with the community through partnerships and direct service.

Faculty across our college have established relationships throughout the Chicago area with organizations such as Chicago Public Schools, El Valor, Access Living, Envision Unlimited, GiGi's Playhouse Chicago, Greater Food Depository, Altus Academy and Midwest Brain Injury Clubhouse.

Engagement activities include health promotion in a diverse cultural environment, wellness and healthy living, and advocacy for people with disabilities. Visit ahs.uic.edu/community-services to learn more.

#### Girls in the Game

Since 2017, Girls in the Game (GITG) and AHS have worked collaboratively to provide experiential learning opportunities for students, improve the lives of underserved youth in Chicago Public Schools, and engage in service activities to promote healthy lifestyles for young females in the surrounding Chicago communities.

GITG provides our students with extensive training sessions focused on working with children of varying emotional and behavioral needs, proper coaching strategies, conflict management and effective engagement initiatives that build character, confidence and leadership.

## It Takes a Village

In an effort to better understand the factors associated with disparities in COVID-19 morbidity and mortality, specifically in childcare centers, as well as to help prevent COVID-19 breakouts in schools, AHS partnered with It Takes A Village Family of Schools (ITAV).

ITAV teachers and staff are provided regular testing for the COVID-19 virus at all ITAV sites and are incentivized for their participation in prevention. Through this effort, we are building a pilot program of COVID-19 prevention and mitigation in education settings, as well as are promoting health equity for families during a time of crisis.

# Advancement

Donor generosity has fueled our success toward our IGNITE: The Campaign for UIC fundraising goal.

We are grateful for the support from AHS alumni, friends, faculty and staff to sustain our excellence in education, research, service and advocacy.

# 

AHS is a consistent leader in research funding for allied health, with an expansive portfolio of research projects conducted in laboratories, clinics and the community.

Studies by AHS investigators have national and international impact in discovering new knowledge, translating findings into practice, creating intellectual property and supporting the college's educational mission. AHS researchers are partners in collaborative projects with colleagues in UIC, Chicago, the U.S. and the world.

Visit ahs.uic.edu/research to learn more.

#### **Metabolic Kitchen**

AHS is home to the Metabolic Kitchen, a professional-quality facility staffed by professional chefs and registered dietitians that makes it possible for UIC investigators to conduct high-level research in diet and nutrition that may not only improve health outcomes for Americans, but individuals all over the world.

#### AHS research labs and centers

AHS is home to over two dozen research labs and centers. Our broad based research portfolio ranges from laboratory-based research to community-based (engaged) research to scholarship in the humanities. View a listing at go.uic.edu/AHSLabsAndCenters.

# Sponsored program expenditures

Financial support for the college's research comes from federal and state agencies, disease-related organizations and community foundations.

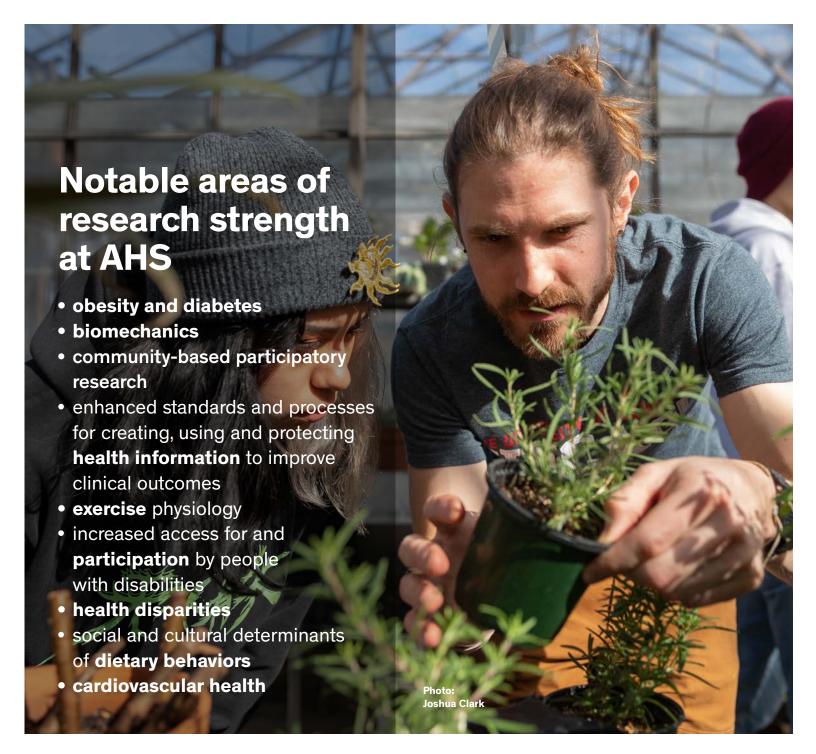

\$312,737

Sponsored expenditures per tenure/tenure-track faculty (full-time equivalent)

\$13,260,062
